We value the significant historical and contemporary contributions of local and regional First Nations and all the Original Peoples of Turtle Island.

Dennis Rogers declared a conflict on this item. (Item 12.3 - Analysis of Request for Long Term Financial Support - Prosper Us' Cradle to Career Strategy. Dennis Rogers' company partnered with United Way and received funding from them for various programs.) Sandra Zwiers reminded Council that ProsperUs provided a delegation to Council on May 17, 2023 regarding the Cradle to Career program. The Cradle to Career program aims to address childhood poverty through a range of supports.

Sandra updated Council on the financial commitments the County had made to ProsperUS in previous years including allocating funds from the Modernization and Efficiency Grant the County received in 2019.

Sandra further explained that there was \$50,000 earmarked for ProsperUs in the County's reserves from previously unused allocations on their behalf and therefore committing \$50,000 at this time would not impact the current budget. Future commitments of funds would require the development of a formal agreement to provide support for a specified period of time.

Discussion included a review of the County's external commitments prior to approving support beyond the funds earmarked in reserves.

At the time of the meeting, the County Administration had not received formal notification of the disbanding of the HHAC. CAO

Sandra Zwiers indicated that she would connect with the City of Windsor for clarification.

Joe Bachetti proposed that Essex County Council abandon the use of the eScribe electronic voting process.

Mary Birch explained that electronic voting had been approved under an amendment to the Procedure By-law 2022-31 by the previous Council. She explained that with the use of virtual and hybrid meetings, the use of electronic voting provided a more transparent and accountable form of voting that was easier for everyone to see how members of Council were voting. She further noted that an update to the Procedure By-law was pending and revising the usage of electronic voting could be considered at that time. In the meantime, she proposed that more of the procedural type motions on the agenda could be voted upon by show of hands, rather than with electronic voting software to ensure efficient meetings.

14.3 Road Rationalization Study

Discussion included the history of this study and the order in which the Road Rationalization Study would be conducted in relation to other reports.

Allan Botham explained that it was advised by the consultant to complete the update of the County Official Plan, followed by the Transportation Master Plan and then proceed with the Road Rationalization Study.
